Evansville, IN | +1 812 351 0115 | mattisonjoey@icloud.com | Authorized to work in the U.S.

ELECTRICAL ENGINEERING STUDENT

Electrical Engineering student with hands-on experience troubleshooting mechanical and automotive systems, using diagnostic equipment, following safety procedures, and maintaining accurate work areas and records. Brings practical problem-solving, technical curiosity, teamwork, and customer-facing experience to electrical engineering internship opportunities.

TECHNICAL SKILLS

Automotive & Mechanical: Tire machines, lifts, diagnostic scanners, oil systems, brake bleeding, battery testing, engine diagnostics, gasket and accessory replacement, coolant systems, brake and suspension service

Technical & Shop: Mechanical troubleshooting, preventive maintenance, visual inspection, parts and tool handling, sanding and surface preparation, paint assistance, cleaning and detailing

Engineering & Computing: Electrical engineering fundamentals, MATLAB, Python, C, CAD, Microsoft Excel, Microsoft Office, operating systems

Professional: Safety compliance, documentation, inventory control, organization, communication, teamwork, customer service, time management, manual handling

EXPERIENCE

Prepared Foods Associate

Sam's Club | Evansville, IN | April 2025 - Present

- Prepare food products according to company standards while maintaining clean, organized, and efficient work areas.
- Follow Ecolab food-safety and sanitation requirements, including proper cleaning, handling, storage, and preparation procedures.
- Coordinate with coworkers during busy periods, helping prioritize tasks and maintain consistent service.

Lube Technician / Mechanic

Stonebriar Auto Services LLC dba Jiffy Lube | Evansville, IN | August 2024 - March 2025

- Performed routine vehicle maintenance and repairs, including oil service, fluid checks, brake-related work, battery testing, and component replacement.
- Used tire machines, vehicle lifts, diagnostic scanners, and specialized tools to support inspections, service, balancing, and alignment work.
- Performed brake bleeding, engine diagnostics, gasket and engine-accessory replacement, and coolant-system service under established procedures.
- Inspected vehicles for wear, damage, and potential safety issues; communicated repair needs and service recommendations to customers.
- Maintained accurate service records, parts inventory, and an organized work area while following safety procedures for tools, vehicles, and chemicals.

Sandwich Artist

Subway | Sullivan, IN | December 2023 - July 2024

- Prepared customer orders accurately and efficiently while following recipes, portion standards, and food-safety procedures.
- Operated POS systems and handled cash transactions while providing clear, professional customer service.
- Helped train new employees and coordinated with team members to maintain smooth operations during peak periods.

Cook / Prep / Dishwasher

Henry Bobe's Trattoria Italiano | Sullivan, IN | September 2022 - December 2023

- Managed multiple orders and kitchen tasks in a fast-paced environment while maintaining accuracy and cleanliness.
- Operated and maintained kitchen equipment; monitored inventory and communicated replenishment needs.
- Followed sanitation and safety procedures and coordinated dishwashing responsibilities during busy periods.

EDUCATION

Bachelor of Science in Electrical Engineering

University of Southern Indiana | Evansville, IN | Expected 2028

Sullivan High School | Sullivan, IN | High School Diploma, May 2024

CERTIFICATION

Driver's License | Valid since April 2024
